

THERAPLAY

A LEVEL ONE TRAINING COURSE FOR PROFESSIONALS

WHAT IS THERAPLAY®?

Theraplay® is a short-term attachment based play therapy for children that focuses on improving the child's behavioural and emotional challenges through the parent-child relationship. In a session, the therapist guides the parent and child through playful games, challenging activities, and nurturing interactions. Theraplay helps the child experience previously difficult interactions in new ways, helps overcome fear and increase trust, and creates a positive change in the

child's sense of self. Theraplay helps the parent be attuned to the child, understand the motives of the child's behavior and the underlying needs, manage environmental stimuli, and carefully challenge their child in a safe place. While other therapies may work primarily with the child alone or work with parents on managing the child's behaviors, TTI's work has shown that the parent-child relationship is the most powerful and influential element for change.

THERAPLAY HAS BEEN USED SUCCESSFULLY TO HELP:

CHILDREN WHO ARE TRAUMA SURVIVORS

SHY, WITHDRAWN CHILDREN

OVERACTIVE, CONTROLLING OR AGGRESSIVE CHILDREN

FOSTER/ADOPTIVE CHILDREN WITH ATTACHMENT DIFFICULTIES

CHILDREN WITH AUTISM SPECTRUM DISORDER AND PERVASIVE DEVELOPMENT DISORDER

CHILDREN WITH PHYSICAL OR MENTAL CHALLENGES

CHILDREN WHO LIVE IN GROUP SETTINGS

More information can be found at www.theraplay.org
or you can watch a short video at [What is Theraplay?](#)
